

**Pick-up/Drop-off Procedures
For
Meek High School**

High school students may be dropped off or picked up in front of the high school building or in front of the new gym. No one should enter the parking lot behind the high school building adjacent to the band and consumer science buildings. This lot is open to teachers only.

Band students and athletes must leave their cars parked in the student parking lot at the new gym during practice as well. Moving these vehicles after school presents an unnecessary safety hazard.

**Pick-up/Drop-off Procedures
For
Meek Elementary School**

Parents may pick up or drop off children in front of the three through six building or in front of the new addition. If parents wish to come through the back drive and drop children off at the double doors at the gym each morning, they may do so, but at **no time shall a car pass a bus when it is stopped on campus**. **Additionally, parents may not enter the back drive for afternoon pick up because buses line up and cannot be passed on the left according to Alabama State Law.** Parents of K-2 students should park at the sewing plant or at the south end of the new addition and walk up to meet their children at their classrooms. Please do not park along the sides of the back drive because this makes it difficult for buses to pull into the drive. Parents of 3-6 students may drive through in front of the 3-6 building or in front of the new addition. Please watch closely for children and merging traffic in these areas. Teachers will be waiting to assist children in meeting their parents.
